Versatile Full-Stack Software Engineer with hands-on experience delivering robust web applications and scalable business solutions. Proven record of building responsive front-end interfaces and secure back-end systems using modern JavaScript frameworks and cloud platforms. Highly skilled in the complete software development lifecycle, troubleshooting, and Agile team collaboration. Seeking to drive innovation and add value as a full-stack developer at a growth-focused tech company.

Experience

- IT Manager** *Sharitta LLC / Detroit, MI / 2019–2023*
 - Oversaw IT infrastructure, systems deployment, and tech support for a fast-paced logistics operation.
 - Automated key processes and managed cloud/network security projects to support company growth.

Education

- South University** *2021–2024*
 - Bachelor of Science, Information Technology (Cybersecurity Emphasis)
- TripleTen Software Engineering Bootcamp** *Aug 2024 – Jun 2025*
 - Certificate in Full-Stack Development

Projects

- BizSupport Pro** *Full-Stack SaaS Platform / React, Node.js, Express, MongoDB*
 - Built a full-stack SaaS ticketing platform with secure user authentication and Stripe-powered subscription tracking.
- What To Wear (WTWR)** *React Web Application / Vite, OpenWeather API*
 - Created a React app that recommends clothing based on live weather data and user preferences.
- MassIT Pro Website** *Company Portfolio / HTML, CSS, JavaScript (Freelance client)*
 - Developed a modern, mobile-friendly company portfolio site to showcase IT services and boost client engagement.
